Agreso Intro

Growing Sustainably, Harvesting Trust!

Agreso, short for **Agriculture Resource Solution**, is the agricultural arm of MRS Group, carrying the responsibility of cultivating a greener future. Our journey began with a dream – a dream of transforming barren lands into lush, thriving landscapes and creating a sustainable legacy for future generations.

This vision was born from the belief that regenerative agriculture could heal the land and uplift the lives of those who rely on it. Years of dedication and innovation have allowed us to blend tradition with modern practices, ensuring every grain we produce reflects our commitment to quality, sustainability, and trust.

Today, Agreso continues to plant seeds of hope and resilience. With every sunrise, we renew our promise to nurture the land, empower communities, and deliver the finest rice to tables worldwide—ensuring the homeland, and the planet, thrives for generations to come.

A close-up photograph of a hand holding a large, shallow, woven basket. The basket is filled with numerous bright red, ripe coffee cherries. The background is slightly blurred, showing green foliage. The text 'The flavor of Vietnam Highland' is overlaid in large white letters on the lower left of the image.

The flavor of Vietnam Highland

Starting from the love with
Vietnam's coffee!

Vietnam's tropical climate provides ideal conditions for cultivating rich, flavorful coffee— and the **Central Highlands** are at the heart of it all. This region, known as Vietnam's coffee capital, is where AGRESO sources its premium coffee beans.

Our dedicated farmers carefully handpick ripe coffee cherries and deliver them directly to our processing facility, located near the lush coffee plantations. This proximity ensures maximum freshness, reduces transportation costs, and guarantees consistent quality — all driven by a passion for bringing the best from farm to cup.

The core of Excellence

Freshness at its finest,
delivered with care.

With decades of expertise, our team ensures that every coffee bean is carefully selected and processed using the latest technology while preserving traditional methods. Our commitment to quality drives us to deliver coffee that exceeds expectations, making us your trusted partner in premium coffee solutions.

Location: Central Highland

Capacity: 150MT/day

Coffee Bean

Unwashed

SPECIFICATIONS

- Green bean
- Robusta/ Arabica
- Screen size: 13, 16, 18
- Moisture: 12.5% max
- Foreign matters: 0.5% max
- Black and broken beans: 2% max
- Packaging: 60kg/bag | 19.2 MT/20FT

TEXTURE:

Firm and dense, making it suitable for roasting to unlock its full flavor potential.

FLAVOR:

Earthy and mildly acidic, with a bold and complex profile that deepens when roasted.

FUN FACT:

Unwashed coffee beans retain natural sugars, creating a sweeter, fuller-bodied flavor.

APPLICATIONS:

Favored in specialty coffee, artisanal blends, and single-origin roasts.

Coffee
Bean

Wet polish

SPECIFICATIONS

- Green bean
- Robusta/ Arabica
- Screen: 13, 16, 18
- Grade: 1,2,3
- Moisture: 12.5 %
- Foreign matter: 0.2%
- Black and broken beans: 0.5% max
- Packaging: 60kg/bag | 19.2 MT/20FT

TEXTURE:

Firm and dense, ideal for roasting to release flavor.

FLAVOR:

Neutral and grassy with mild acidity, developing richer notes when roasted.

FUN FACT:

Green coffee beans offer roasters full control over the flavor profile and are also used for their high antioxidant content in health supplements.

APPLICATIONS:

Primarily roasted into specialty coffee, green beans are also used for coffee extracts and green coffee supplements.

Coffee Bean

Cleaned

SPECIFICATIONS

- Cleaned bean Coffee
- Robusta/ Arabica
- Screen: 16, 18
- Grade: 1,2,3
- Moisture: 10-12.5 %
- Foreign matter: 0.1%
- Black: 0.3%
- Packing: 60kg/ bag
- New jute bag

TEXTURE:

Smooth and slightly coarse, offering a satisfying texture with every sip.

FLAVOR:

Rich, aromatic coffee flavor with subtle hints of natural earthiness and a smooth finish.

FUN FACT:

It's a favorite among coffee enthusiasts and roasters because it provides a perfect balance between boldness and smoothness, making it ideal for a variety of brewing methods.

APPLICATIONS:

Perfect for brewed coffee, espresso, cold brew, and as an ingredient in coffee-flavored desserts.

**Desiccated
Coconut**

Roasted

SPECIFICATIONS

- Type: Arabica / Robusta
- Screen size: 16, 18
- Moisture: 5% max
- Foreign matters: 0.1% max
- Black and broken beans: 1% max
- Packaging: 10kg/bag | 6 MT/20FT

TEXTURE:

Smooth and slightly oily with a rich, aromatic surface.

FLAVOR:

Bold, well-balanced flavor with notes of chocolate, nuts, and caramel, depending on the roast level.

FUN FACT:

Roasted coffee develops over 800 aromatic compounds, making it one of the most complex beverages in the world.

APPLICATIONS:

Ideal for espresso, drip coffee, cold brew, and specialty blends.

Growing with purpose

Every coconut we harvest carries a story of care for the land, for the people, and for a greener future.

From the very beginning, AGRESO has built its values on **Sustainability and Social Responsibility**, making them the core of our identity. We believe that every effort to protect the environment and support communities creates a lasting impact beyond the coffee we deliver.

Our commitment is reflected in fostering job opportunities, empowering coffee-growing communities, and promoting **regenerative farming** to preserve the land. We strive to ensure that every bean we cultivate enriches the soil, supports farmers, and sustains our planet.

Because when we care for the earth, it rewards us in return. Because nurturing nature means securing a future for generations to come.
