Agreso Intro

*Growing Sustainably,
Harvesting Trust!*

Agreso, short for **Agriculture Resource Solution**, is the agricultural arm of MRS Group.

We are a group of people who love agriculture and grew up nourished by the land. Our journey began with a dream that sprouted under the blazing sun of the Central Highlands, the dream of transforming barren lands into lush and thriving landscapes. With gratitude to the soil that raised us, we simply hope to cultivate it with care and sustainability, growing good agricultural products and bringing them to consumers' tables.

We believe that "you are what you eat." The quality of food gradually shapes the energy and the life we live.

Since 2019, we have been moving forward step by step on this path. We also believe there are many partners and enterprises who share the same belief, working together to bring healthier and more meaningful food to more people.

The flavor of Vietnam Homeland

Starting from the love with
Vietnamese rice!

In Mekong Delta of Vietnam, the combination of fertile land, water resources, climate and generations of farming knowledge creates a very strong environment for Agreso's rice cultivation.

Rooted in tradition and guided by sustainability, our farmers work in harmony with nature. From sunlit fields to our modern mill, every grain is carefully handled to preserve its purity, flavor, and the spirit of Vietnam — bringing honest, flavorful rice from farm to table.

The core of Excellence

Freshness at its finest,
delivered with care.

For export, consistency is extremely important.

Our operational backbone includes a silo capacity of 30,000 metric tons and four fully automated factories in Cần Thơ equipped with modern imported machinery. Every grain undergoes automated drying, milling, polishing, color-sorting, and metal detection before packing.

Location: Mekong Delta Region

Capacity: 400MT/day

SPECIFICATIONS

- Broken: $\leq 5.0\%$
- Chalky kernels: $\leq 3.0\%$
- Moisture: $\leq 14.5\%$
- Foreign matter: $\leq 0.1\%$
- Damaged kernels: $\leq 0.5\%$
- Yellow kernels: $\leq 0.5\%$
- Red streaked kernels: $\leq 0.5\%$
- Immature kernels: $\leq 0.2\%$
- Paddy grains: 1 grain/kg
- Average length: 4.8-5.0mm
- Milling degree: well milled, double polished, sortexed
- Crop: newest crop

ORIGIN & FLAVOR

Japanica rice is renowned for its short, shiny, and uniform grains. Originating from East Asia, its subtle sweetness and delicate stickiness elevate every dish.

PERFECT FOR:

Sushi, rice balls, or steamed rice. When cooked, Japanica becomes tender, glossy, and slightly chewy. Its authenticity elevates Asian cuisine, bringing tradition to your table.

**Medium
Grain**

CALROSE

SPECIFICATIONS

- Broken: $\leq 5.0\%$
- Chalky kernels: $\leq 3.0\%$
- Moisture: $\leq 14.5\%$
- Foreign matter: $\leq 0.1\%$
- Damaged kernels: $\leq 0.5\%$
- Yellow kernels: $\leq 0.5\%$
- Red streaked kernels: $\leq 0.5\%$
- Immature kernels: $\leq 0.2\%$
- Paddy grains: 1 grain/kg
- Average length: 5.8mm
- Milling degree: well milled, double polished, sortexed
- Crop: newest crop

**Soft,
moist,
adaptable**

ORIGIN & FLAVOR

Calrose rice, originating from California, is a medium-grain variety with a slightly sticky texture. It has a mild flavor, making it ideal for a variety of dishes.

PERFECT FOR:

Sushi, rice bowls, and as a side dish. When cooked, Calrose rice becomes soft and slightly sticky, making it perfect for sushi or absorbing flavors in rice bowls.

**Long
Grain**

JASMINE

**Fluffy,
tender,
aromatic**

SPECIFICATIONS

- Broken: $\leq 5.0\%$
- Chalky kernels: $\leq 3.0\%$
- Moisture: $\leq 14.5\%$
- Foreign matter: $\leq 0.1\%$
- Damaged kernels: $\leq 0.5\%$
- Yellow kernels: $\leq 0.5\%$
- Red streaked kernels: $\leq 0.5\%$
- Immature kernels: $\leq 0.2\%$
- Paddy grains: 1 grain/kg
- Average length: 6.8mm
- Milling degree: well milled, double polished, sortexed
- Crop: newest crop

ORIGIN & FLAVOR

Jasmine rice, known for its long, slender grains and fragrant aroma, originates from Southeast Asia. Its delicate floral fragrance and naturally soft texture make it a favorite for Asian and global cuisine.

PERFECT FOR:

Steamed rice, fried rice, and side dishes. When cooked, Jasmine rice remains fluffy and aromatic, perfect for pairing with stir-fries, grilled meats, and Asian curries.

**Long
Grain**

S^{T25}

**Elite,
nutty,
premium**

SPECIFICATIONS

- Broken: $\leq 5.0\%$
- Chalky kernels: $\leq 3.0\%$
- Moisture: $\leq 14.5\%$
- Foreign matter: $\leq 0.1\%$
- Damaged kernels: $\leq 0.5\%$
- Yellow kernels: $\leq 0.5\%$
- Red streaked kernels: $\leq 0.5\%$
- Immature kernels: $\leq 0.2\%$
- Paddy grains: 1 grain/kg
- Average length: 7.2mm
- Milling degree: well milled, double polished, sortexed
- Crop: newest crop

ORIGIN & FLAVOR

ST25 rice, hailed as one of the finest varieties of Vietnamese rice, is known for its soft texture, rich aroma, and slightly nutty flavor. It is the result of extensive cultivation and perfect conditions.

PERFECT FOR:

Traditional Vietnamese dishes, fried rice, or served with grilled meats. When cooked, ST25 rice has a soft and sticky texture, perfect for pairing with flavorful dishes.

Grain

K^{DM}

Premium,
fragrant,
tender

SPECIFICATIONS

- Broken: $\leq 5.0\%$
- Chalky kernels: $\leq 3.0\%$
- Moisture: $\leq 14.5\%$
- Foreign matter: $\leq 0.1\%$
- Damaged kernels: $\leq 0.5\%$
- Yellow kernels: $\leq 0.5\%$
- Red streaked kernels: $\leq 0.5\%$
- Immature kernels: $\leq 0.2\%$
- Paddy grains: 1 grain/kg
- Average length: 7.0mm
- Milling degree: well milled, double polished, sortexed
- Crop: newest crop

ORIGIN & FLAVOR

KDM rice, a premium fragrant rice varieties, is renowned for its tender texture, natural sweet taste, and a distinct jasmine aroma. Grown primarily in the fertile border regions between Vietnam and Cambodia, it is the result of a meticulous traditional cultivation.

PERFECT FOR:

Daily family meals, Asian fried rice, or savory stews. When cooked, KDM rice is soft and remains tender and flavorful even after cooling completely.

**Long
Grain**

G LUTINOUS

**Soft,
sticky,
chewy**

SPECIFICATIONS

- Broken: $\leq 5.0\%$
- Moisture: $\leq 14.5\%$
- Foreign matter: $\leq 0.1\%$
- Damaged kernels: $\leq 0.5\%$
- Yellow kernels: $\leq 0.5\%$
- Red streaked kernels: $\leq 0.5\%$
- Immature kernels: $\leq 0.2\%$
- Paddy grains: 1 grain/kg
- Average length: 6.8mm
- Milling degree: well milled, double polished, sortexed
- Crop: newest crop

ORIGIN & FLAVOR

Glutinous rice, also known as sticky rice, is known for its sticky, chewy texture. Commonly grown in Southeast Asia, it has a subtle sweetness and is often used in traditional Asian sweets and savory dishes.

PERFECT FOR:

Dim sum, sticky rice with mango, and traditional Asian desserts. When cooked, glutinous rice becomes soft, sticky, and forms a cohesive mass, perfect for wrapping in leaves or serving with curries.

Color Rice

D RAGON BLOOD RICE

Hearty,
vibrant,
nutritious

SPECIFICATIONS

- Broken: $\leq 5.0\%$
- Moisture: $\leq 14.5\%$
- Foreign matter: $\leq 0.1\%$
- Damaged kernels: $\leq 0.5\%$
- Yellow kernels: $\leq 0.5\%$
- Red streaked kernels: $\leq 0.5\%$
- Immature kernels: $\leq 0.2\%$
- Paddy grains: 1 grain/kg
- Average length: 6.8mm
- Milling degree: well milled, double polished, sortexed
- Crop: newest crop

ORIGIN & FLAVOR

Red rice is rich in nutrients, with a mildly nutty flavor and a chewy texture. Its natural reddish color comes from anthocyanins, powerful antioxidants. Cultivated in nutrient-rich soil, red rice is a healthy and flavorful choice.

PERFECT FOR:

Health-conscious dishes, mixed rice bowls, or hearty grain salads. It pairs wonderfully with roasted vegetables or lean proteins.

Color Rice

BROWN RICE

Pure,
earthy,
versatile

SPECIFICATIONS

- Broken: $\leq 5.0\%$
- Moisture: $\leq 14.5\%$
- Foreign matter: $\leq 0.1\%$
- Damaged kernels: $\leq 0.5\%$
- Yellow kernels: $\leq 0.5\%$
- Red streaked kernels: $\leq 0.5\%$
- Immature kernels: $\leq 0.2\%$
- Paddy grains: 1 grain/kg
- Average length: 6.8mm
- Milling degree: well milled, double polished, sortexed
- Crop: newest crop

ORIGIN & FLAVOR

Brown rice retains the bran and germ layers, giving it a nutty taste and chewy texture. It's high in fiber and nutrients, making it a staple in healthy diets worldwide.

PERFECT FOR:

Rice bowls, stir-fried dishes, or as a substitute for white rice in any recipe. Brown rice is ideal for balanced, nutritious meals.

Color Rice

B LACK RICE

Exotic,
aromatic,
nutritious

SPECIFICATIONS

- Broken: $\leq 5.0\%$
- Moisture: $\leq 14.5\%$
- Foreign matter: $\leq 0.1\%$
- Damaged kernels: $\leq 0.5\%$
- Yellow kernels: $\leq 0.5\%$
- Red streaked kernels: $\leq 0.5\%$
- Immature kernels: $\leq 0.2\%$
- Paddy grains: 1 grain/kg
- Average length: 7.2mm
- Milling degree: well milled, double polished, sortexed
- Crop: newest crop

ORIGIN & FLAVOR

Black rice, also known as "forbidden rice," is prized for its striking dark hue, subtle sweetness, and slightly nutty flavor. Packed with antioxidants, it's a superfood that enhances both taste and nutrition.

PERFECT FOR:

Desserts like rice puddings, colorful salads, or as an eye-catching side dish. Its unique flavor and texture make it a versatile choice in gourmet cooking.

Processing

*Let's take a
glimpse into
our processing
operation!*

Commercialization

FARMING + HARVESTING

- Directly cultivating **1,000 hectares** of our farm in Mekong Delta, Vietnam.
- Cooperating with local farmers under a business–farmer partnership model.
- Average rice yield reaches 9 tons per hectare per crop.
- In addition to our vision of producing clean and safe rice for human consumption, Agreso is gradually paving the way toward natural rice cultivation that is in harmony with nature.

PROCESSING

A silo system with a capacity of 30,000 MTS enables precise control of moisture, temperature, and pressure.

Four large-scale factories have been established in Cần Thơ City, fully equipped with 100% modern machinery and equipment imported from abroad. The factories operate under a fully automated system covering all stages, including drying, milling, polishing, color sorting, and final packaging.

LOADING ZONE

Growing with purpose

Every rice grain we harvest carries a story of care for the land, for the people, and for a greener future.

Planting area: +1000 ha

From the very beginning, AGRESO has rooted its values in **Sustainability** and a deep sense of **Social Responsibility**, which have become the heart of our identity. We believe that **every act of care towards the environment and community leaves a lasting impact, beyond just the products we deliver.**

Our commitment is reflected in fostering job opportunities, supporting local communities, and **safeguarding coconut growing regions** by promoting **regenerative farming practices**. We strive to ensure that **each crop nurtures the soil, uplifts the people, and strengthens our planet.**

Because we know that **when we nurture the land, it nurtures us back.** Because we believe that **giving life to nature is giving life to generations.**
